

New powder shampoo

ISTOBAL

We provide solutions

ISTOBAL is committed to developing the best car-wash solutions. We manufacture quality equipment and we offer the best chemicals with the lowest environmental impact.

This perfect combination can be seen in our new powder shampoo formulation and our new dosing hopper, extending equipment life and improving the wash experience.

Our powder shampoo is a chemical concentrate with an anti-congealing property, and is adequate for use at jet washes.

Product concentrates

Bubble jet stardust basic

- ✓ The perfect balance between quality and price.
- ✓ Basic esens® cleaning with an economical detergent price.
- ✓ Suitable for low water hardness.
- ✓ Available fragrance free (Bubble jet stardust basic pure: 5297925 – 5F341434) and Spa fragrance (Bubble jet stardust basic: 5298025-5F341433).

Bubble jet stardust medium (5290800 – 5F341433):

- ✓ Excellent foam-producing capacity.
- ✓ Easy to rinse.
- ✓ Fast and strong cleaning action.
- ✓ With a pleasant peach smell.

Bubble jet stardust (5290700 – 5F341121):

- ✓ Impeccable cleaning, eliminates the driest stains.
- ✓ Suitable for hard water, prevents limescale from building up.
- ✓ Can be used with cold and hot water (up to 70°C).
- ✓ Intense aroma, cleanliness and freshness.

*The surfactants in this mixture comply with biodegradability criteria in Regulation (EC) no. 649/2012 on detergents.

Wash improvement

Product integration is the best way to a complete service.

For that reason, a product dosing hopper has been developed which, combined with the shampoo, provides a more effective foamy wash.

Features:

- Device managed by the jet wash programmable controller.
- Parameters set from the control screen on the electrical board.
- Internal device avoids powder compaction inside the hopper.
- Pre-mix tank ensures perfect powder dilution in water.
- Design facilitates maintenance.
